Watercolor

Art WALLPAPER

With its softness and contrasts, watercolor is an ideal technique for representing the beauty of nature.

It is with this approach that we have created our selection of watercolor wallpapers: lush foliage, shimmering flowers, exotic birds...

There are plenty of patterns that invite us to daydream and travel.

Whether it is a child's fresco, plant or floral pattern, watercolors give volume and depth to the designs, perfect for a poetic and subtle decoration, we just love it !

Watercolor wallpaper is the art of painting with aquarelle. In a few lines, we can provide you with all the useful information including choice of colors, available formats, and the technique used.

A NEW EXPERIENCE

An original wallpaper is all right, what if it was trendy, groundbreaking. What could be more trendy than pop culture? Whenever the word "pop" comes to our mind, we all think of pop art with a little touch of grunge and impertinence, splashed with bright colors.

That's exactly the spirit of our pop wallpapers with the possibility to create your own version of pop culture. A little eccentric note in your interior, which can create a very interesting contrast with vintage, or more conventional items.

Design N°277 - Retro Flowers

Rétro vibe

Vintage wallpapers have made a comeback in interior design over the last few years, contributing to the character of a space.

While these iconic patterns remain popular nowadays, you can also pick more creative prints if you prefer something slightly unusual. Our vintage wallpapers reflect timeless styles that never get out of fashion and have increasingly come back into demand in recent years due to their unique aesthetic.

Warm colors triumph with orange or camel. The walls display bold and geometric shapes, allow yourself the freedom to embrace them!

Dare, it's easy.

Our wallpaper is easy to install and can be removed without damaging the walls.
It is also perfectly suited to the requirements of an ephemeral event.
